

Friends,

The 2010 Census will be upon us soon, and as we discussed during our meetings this fall, we would like to bring everyone together one more time. Please plan to attend a working session on **Tuesday, February 23**, from 10 to 11:00 a.m., at the Council for Older Adults, 800 Cheshire Road, Delaware. Our goals for this session are:

- **Learn** what others are doing within their own organizations to reach out to the populations that they serve.
- **Share** your thoughts and creative ideas on how you are reaching out to your own network of clients, board members, and colleagues to encourage participation in the census.
- **Gain** access to any answers or resource materials you need to make it easier to spread the word.

Plan to leave this meeting with new ideas about how your organization can reach out and help make this census successful in our community!

If you have contacts who should be joining us in this effort, ***it is critical*** that you invite them and bring them to this working session! All are welcome; we need your help in bringing your own contacts to the table. We expect this to be our last meeting prior to the 2010 Census.

Please contact us soon to let us know whether you'll be attending. We hope to see you there!
